

# SMARTER WEAVING. STRONGER PROFITS.

Real-time visibility for every looms  
Better decisions. Better output.

**STOP LOSING PRODUCTION  
YOU CAN'T SEE.**

## REAL-TIME VISIBILITY

Live data from every loom,  
every second.

## INSTANT ALERTS

Get notified.  
Take action.  
Reduce downtime.

## DATA-DRIVEN DECISIONS

Analyze.  
Optimize.  
Improve efficiency.

**TRANSFORM YOUR FACTORY  
WITH textIT**

SEE EVERY LOOM  
CONTROL EVERY MINUTE

# In your weaving unit, are you able to:

1

See which looms  
are underperforming  
*right now?*

3

Track operator  
efficiency without  
*manual reports?*

2

Identify production  
losses as they  
*happen?*

4

Take quick  
decisions before  
*losses increase?*

**If not, your factory is  
losing efficiency every minute.**

**texIT** gives you real-time visibility and control  
to act instantly, reduce losses,  
and improve overall performance.

SEE EVERY LOOM  
CONTROL EVERY MINUTE

# teXIT gives you real-time visibility and control

of your entire weaving operation.

IoT Efficiency Display

### Real-time Visibility

See every looms, every shift, every minute — live and in one place.

### Actionable Insights

Get instant insights into performance, losses, downtime and efficiency.

### Smarter Decisions

Act early, reduce losses and improve productivity across your factory.

## One Platform, Complete Control.

### Live Production Monitoring

Track output, speed, efficiency and status in real time.

### Downtime & Loss Analysis

Identify losses as they happen and eliminate them faster.

### Operator Performance

Monitor Operator efficiency and improve accountability.

### Smart Alert

Get instant alerts for stoppages, deviations and critical events.

### Report & Analytics

Detailed reports to drive continuous improvement.

## More Powerful Features

### Energy Monitoring

Track energy consumption and improve efficiency.

### IoT Display Solution

Real-time shop floor display for instant visibility.

### AI Manager

AI driven insight and recommendations to boost performance.

### Mobile Access

Access real-time data and alerts anytime, anywhere.

### Compressor Monitoring

Monitor compressor performance, energy and health in real time.

### Humidification Plant Monitoring

Monitor RH, temperature and performance for optimum efficiency.

Know more. Act faster. Perform better with teXIT.

teXIT helps you run a smarter, more efficient and more profitable weaving operation.

SEE EVERY LOOM  
CONTROL EVERY MINUTE

# Why textIT matters.

In today's competitive textile industry, every minute of inefficiency costs money.

textIT puts you in control with real-time visibility, actionable insights and instant decisions - so you can:

### Maximize Productivity

Improve loom utilization and output across every shift.

### Reduce Losses

Identify and eliminate downtime, breakdowns, and wastages.

### Improve Operator Performance

Track efficiency, set targets and drive accountability.

### Optimize Energy Consumption

Monitor energy usage and reduce unnecessary consumption.

### Make Faster, Smarter Decision

Get real-time data and alerts to act before losses increase.

## Small improvements. Big impact.

2.3%

Increase in Overall Equipment Effectiveness

1.8%

Reduction in Production Losses

1.6%

Improvement in Operator Efficiency

1.2%

Reduction in Energy Consumption

Better visibility.  
Better control.

## Better results.

Real improvements. Real impact.  
Powered by textIT.

### Take control today.
